

Bio-Hold® provides nutritional support during the plant's reproductive cycle, resulting in stronger plants and enhanced uniformity. Bio-Hold®'s patented technology improves uptake and allocation of available nutrients resulting in increased fruit hold, less fruit loss, and higher Brix.

## PRODUCT FEATURES/BENEFITS

- Increases fruit and nut hold
- Reduces fruit loss

## ACTIVE INGREDIENTS:

Total nitrogen (N)	6.0%
2.5% urea nitrogen	
3.5% other water soluble nitrogen	
Soluble potash (K2O)	3.0%
Cobalt (Co)	2.5%
2.5% chelated cobalt	
Molybdenum (Mo)	0.5%

## GUARANTEED ANALYSIS

Stoller products are designed to help plants function more efficiently. Stoller products are not replacements for sound agronomy and fertility programs. They work in concert with good farming practices to help the plant realize its true yield potential.

## RECOMMENDED FIELD APPLICATIONS

Bio-Hold® is formulated for the following highlighted applications

- |                                     |   |               |                                     |   |                   |
|-------------------------------------|---|---------------|-------------------------------------|---|-------------------|
| <input type="checkbox"/>            |  | <b>SEED</b>   | <input type="checkbox"/>            |  | <b>SOIL</b>       |
| <input checked="" type="checkbox"/> |  | <b>FOLIAR</b> | <input checked="" type="checkbox"/> |  | <b>IRRIGATION</b> |

## CONTAINER SIZE

2X2.5 gallon container

275 gallon mini bulk
