

KEYLATE® COMO CLASSIC

STOLLERUSA.COM

Keylate® CoMo Classic is a convenient plant-available source of the essential nutrients cobalt and molybdenum. Cobalt and molybdenum play an essential role in nitrogen utilization. Keylate® CoMo Classic is formulated to be applied as a seed treatment, applied along with liquid fertilizer solutions, impregnated onto dry fertilizer, or applied with pesticide spray solutions and is non-phytotoxic when used as directed.

PRODUCT FEATURES/BENEFITS

- Provides nutritional support for improved nitrogen use efficiency
- Improves plants' ability to utilize nitrogen
- Provides essential nutrients for nitrogen metabolism
- Aids in plant growth
- Reduces abiotic stress
- Reduces cobalt and molybdenum deficiencies
- Chelated micronutrient package
- Compatible with other products
