

STOLLER ROOT FEED® DRY

STOLLERUSA.COM

Plant roots produce most of the hormones plants need for proper growth and yield. A healthy, vigorous root system needs proper nutrition to sustain the life of the plant. Stoller Root Feed® Dry aids continuous growth of the roots, maintaining the optimum nutritional balance throughout the plant's growth cycle, regardless of the phenological state (crop stage) and climatic variations.

PRODUCT FEATURES/BENEFITS

- Convenient, water soluble, dry formulation
- Supports the most efficient use of fertilizers applied to the soil
- Supports uniform establishment of crops
- Nutritional support for root development
- Provides nutritional support for tree health, strength, and vigor
